Univerza v Mariboru Fakulteta za zdravstvene vede

Izr. prof. dr. Mateja Lorber
dekanica

V letu 2023 Univerza v Mariboru Fakulteta za zdravstvene vede praznuje 30. obletnico delovanja. Razvoj Fakultete za zdravstvene vede se je pričel pred 30 leti, ko je leta 1993 Državni zbor RS z zakonom ustanovil Višjo zdravstveno šolo UM, ki se je leta 1994 preoblikovala v Visoko zdravstveno šolo UM. Izobraževalno in raziskovalno delo zaposlenih in zunanjih sodelavcev ter povezovanje s priznanimi domačimi in tujimi znanstvenoraziskovalnimi, izobraževalnimi in zdravstvenimi institucijami je leta 2006 omogočilo preoblikovanje Visoke zdravstvene šole UM v Fakulteto za zdravstvene vede UM. Bili smo prva fakulteta v slovenskem prostoru za področje zdravstvene nege in zdravstvenih ved.

S svojim delovanjem smo se na področju izobraževanja in raziskovanja zmeraj odzivali na potrebe družbe in smo kot prvi v slovenskem visokošolskem prostoru pričeli razvijati in izvajati:

- podiplomske specialistične študijske programe s področja zdravstvene nege in zdravstva,
- študijski program 2. stopnje Zdravstvena nega in študijski program 2. stopnje Bioinformatika,
- študijski program 3. stopnje Zdravstvena nega ter
- študijske smeri s področja napredne zdravstvene nege na študijskem programu 2. stopnje Zdravstvena nega.

Leto 2021 predstavlja nov zgodovinski mejnik razvoja fakultete in zdravstvene nege v Sloveniji s prvim zagovorom doktorske disertacije, saj je izobraževanje v zdravstveni negi po vertikali prvič dobilo svoj epilog.

Vzporedno z razvojem študijskih programov je fakulteta razvijala znanstveno-raziskovalno dejavnost in je za izvajanje raziskovalnih projektov aktivno vzpostavljala mednarodno sodelovanje z uglednimi raziskovalnimi in izobraževalnimi institucijami. Rezultati dolgoletnega dela so razvidni iz domače in mednarodne prepoznavnosti fakultete, njenih zaposlenih in študentov. Razvoj fakultete je bil in je usmerjen v delovanje v okolju, v katerem je fakulteta vidna in videna, zato nenehno skrbimo za njen konstanten razvoj na področju izobraževanja ter raziskovanja. Izjemno pomembno je poudariti sodelovanje fakultete s kliničnimi institucijami, saj lahko le skupaj oblikujemo odličen kader s področja zdravstvene nege in zdravstva, ki je prepoznan in cenjen v zdravstvenih in drugih institucijah.

S povezovanjem in sodelovanjem dokazujemo, da uspešno prenašamo svoje znanstvenoraziskovalne dosežke in hkrati s tem omogočamo podporo razvoja zdravstvene nege kot znanstvene discipline in profesije v slovenskem prostoru. Fakulteto zaznamujejo predvsem ljudje, ki so jo vodili in v njej delali, njihova znanja in energija, ki so jo vložili v delo in tisti, ki jo predstavljajo danes s svojim znanjem, energijo in odnosom do sodelavcev. Ob tej priložnosti bi se želela zahvaliti vsem in vsakemu posebej, ki ste in še vedno s svojim delom, trudom in angažiranostjo prispevate k razvoju in delovanju naše fakultete in s tem seveda tudi Univerze v Mariboru.

University of Maribor Faculty of Health Sciences

Assoc Prof Mateja Lorber, PhD

Dean

University of Maribor Faculty of Health Sciences is celebrating its 30th anniversary in 2023. The development of the Faculty of Health Sciences began 30 years ago when, in 1993, the National Assembly of the Republic of Slovenia established by law the Higher School of Nursing UM, which was transformed into the College of Nursing Care UM in 1994. Employees' and external collaborators' educational and research work, as well as connections with recognized domestic and foreign scientific research, educational, and health institutions, enabled the transformation of the UM College of Nursing Care into the UM Faculty of Health Sciences in 2006. We were the first nursing and health sciences faculty in the Slovenian region. We have always responded to societal requirements through our educational and research activities, and we were the first in the Slovenian higher education sector to create and implement:

- postgraduate specialist study programmes in the field of nursing and healthcare,
- 2nd degree study programme Nursing and 2nd degree study programme Bioinformatics,
- 3rd degree study programme Nursing and
- study courses in the field of advanced nursing in the 2nd degree programme Nursing.

The year 2021 represents a new historical milestone in the development of the faculty and nursing in Slovenia, with the first defense of the doctoral dissertation. In parallel with the development of study programs, the faculty developed scientific research activities and established international cooperation with prominent research and educational institutions for the implementation of research projects. The results of many years of work can be seen in the national and international visibility of the faculty, its employees, and students. The development of the faculty was and continues to be targeted at working in an atmosphere in which the faculty is seen and noticed; thus, we are continuously focused on its ongoing development in the fields of education and research. It is essential to emphasize the faculty's cooperation with clinical institutions because only together can we form an excellent staff in the field of nursing and healthcare, which is recognized and appreciated in healthcare and other institutions. By connecting and cooperating, we demonstrate that we successfully transfer our scientific research achievements and, at the same time, enable support for the development of nursing as a scientific discipline and profession in Slovenia. The faculty is characterized above all by the people who led it and worked in it, the knowledge and energy, which they invested in their work, and those who represent it today with their knowledge, energy, and attitude towards their colleagues. I would like to take this opportunity to thank each and everyone of you who, with your work, effort, and commitment, contribute to the development and operation of our faculty and, consequently the University of Maribor.

Zgodovinski razvoj

Historical Development

V prvem obdobju obstoja višje in visoke šole je bil poudarek na razvoju in izvajanju izobraževalne dejavnosti dodiplomskega rednega in izrednega študija ter na izvedbi podiplomskih specialističnih študijskih programov, ki smo jih začeli razvijati kot prvi v slovenskem visokošolskem prostoru na področju zdravstvene nege. V tem obdobju je šola pridobivala prve redno zaposlene visokošolske učitelje ter začela postavljati temelje raziskovalne dejavnosti, pridobivala je prve raziskovalne projekte ter gradila mrežo mednarodnega povezovanja in sodelovanja.

V drugem obdobju obstoja s preoblikovanjem iz visoke šole v fakulteto je bil poudarek na razvoju visokošolskega študijskega programa 1. stopnje in na razvoju podiplomskih študijskih programov 2. in 3. stopnje. Preoblikovanje Visoke zdravstvene šole v Fakulteto za zdravstvene vede Univerze v Mariboru je omogočilo selekcijo pri vpisu študentov, razvoj lastnega kadra na področju zdravstvene nege, odlične in zavzete visokošolske učitelje in sodelavce, mednarodno sodelovanje in nenazadnje prepotreben razvoj raziskovalne dejavnosti.

In the first period of existence as a higher school and college, the emphasis was on the development and implementation of educational activities for full-time and part-time undergraduate study programmes and postgraduate specialist study programmes, which we had developed as the first in Slovenian higher education. During this first period, the school employed first permanent university teachers and began to lay foundations for research activities, acquired first research projects and built a network of international integration and cooperation.

In the second period of its existence, and the transformation from a college to a faculty, the focus was on the development of the 1st degree study programme and postgraduate 2nd and 3rd degree study programmes. The transformation from the College of Nursing Care into the Faculty of Health Sciences, University of Maribor was possible, because of selection of the enrolled students, development of our own human resources in nursing, excellent and committed academic staff, international cooperation and, ultimately, much-needed research.

Višja zdravstvena šola Univerze v Mariboru Higher School of Nursing University of Maribor

Razvoj fakultete se je začel 17. 6. 1993, ko je Državni zbor RS z zakonom ustanovil Višjo zdravstveno šolo. Novembra 1993 je šola pričela z izvajanjem višješolskega študijskega programa Zdravstvena nega, ki je skupaj z diplomskim trajal šest semestrov. Nova članica Univerze v Mariboru je za svoje delovanje dobila prostore na Žitni ulici 15. Prva generacija študentov je imela na voljo le dve nadstropji stavbe takratnega Zdravstvenega doma Maribor in v najemu eno predavalnico Srednje zdravstvene šole Juge Polak.

Višja zdravstvena šola Univerze v Mariboru je uspešno delovala pod vodenjem prvega dekana zasl. prof. dr. Vilijema Brumca, in sicer od njene ustanovitve do 30. 9. 1997. Na višješolskem študijskem programu Zdravstvena nega je diplomiralo 230 študentov.

Development of the faculty had started on June 17th 1993, when the National Assembly of the Republic of Slovenia established the Higher School of Nursing by law. In November 1993, the school launched the study programme Nursing Care, which lasted five semesters and a graduate semester. The new member of the University of Maribor had received new premises at Žitna ulica 15. The first generation of students had only two floors of the building of then Health Centre Maribor and one rented classroom in a Secondary School of Nursing Juga Polak.

Higher School of Nursing University of Maribor had successfully operated under the management of the first dean Professor Emeritus Viljem BRUMEC, PhD, from its founding till September 30th 1997. 230 students graduated at the higher professional study programme of Nursig Care.

1994

1996

Visoka zdravstvena šola Univerze v Mariboru College of Nursing Care University of Maribor

Z odlokom o preoblikovanju, ki ga je sprejel Državni zbor Republike Slovenije leta 1994, je bila Višja zdravstvena šola preoblikovana v Visoko zdravstveno šolo Univerze v Mariboru. Od 1. 1. 1995 je že delovala kot Visoka zdravstvena šola.

By the decree about the conversion, which was adopted by the Parliament of the Republic of Slovenia in 1994, the Higher School of Nursing was transformed into College of Nursing Care. Thus, from January 1st 1995, it has operated as the College of Nursing Care.

Ustanovitev prvega Inštituta za zdravstveno nego v Sloveniji

Establishment of the first Institute for Nursing Care in Slovenia

V letu 1996 je bil na pobudo prof. Dr (Združeno kraljestvo Velike Britanije in Severne Irske) Majde Pajnkihar ustanovljen prvi Inštitut za zdravstveno nego v Sloveniji, in sicer za izvajanje interdisciplinarnih raziskav v zdravstveni negi in v disciplinah, ki so z njo sorodne ali povezane.

At the initiative of Prof Majda Pajnkihar, PhD in 1996 the first Institute for Nursing Care in Slovenia was established to carry out interdisciplinary research in nursing care and other disciplines related with it.

1997

2001

2003

Visoka zdravstvena šola Univerze v Mariboru

College of Nursing Care University of Maribor

Vodenje Visoke zdravstvene šole Univerze v Mariboru je prevzela dekanica zasl. prof. dr. Dušanka Mičetič Turk, in sicer 1. 10. 1997.

The management of College of Nursing Care, University of Maribor was assumed by the Dean Prof Emeritus Dušanka Mičetič Turk, PhD on October 1st 1997.

19. 9. 2001 je bil položen temeljni kamen za obnovo zgradbe in gradnjo prizidka, ki ga je financiralo Ministrstvo za šolstvo, znanost in šport Republike Slovenije.

On September 19th 2001 the foundation stone was laid for the reconstruction of the building and construction of an extension, which was financed by the Ministry of Education, Science and Sport of the Republic of Slovenia.

Januarja 2003 je bila uspešno zaključena investicija obnove in dozidave objekta Visoke zdravstvene šole UM na Žitni ulici 15.

In January 2003 the renovation and extension of the building on Žitna ulica 15 was successfully completed.

Visoka zdravstvena šola je 2. 12. 2003 praznovala 10. obletnico ustanovitve.

College of Nursing Care celebrated 10 years of its existence on December 2nd 2013.

Svečano odprtje Simulacijskega centra Visoke zdravstvene šole je bilo 11. 4. 2005. Prvi simulacijski center v Sloveniji predstavlja osnovo za podporo pri delu in študiju tako medicinskim sestram kot tudi zdravnikom.

The Simulation Centre at the College of Nursing Care was solemnly opened on April 11th 2005. The first Simulation Centre in Slovenia represents a base of support for work and study of nurses as well as doctors.

Preoblikovanje v Fakulteto za zdravstvene vede

Conversion to the Faculty of Health Sciences

27. 12. 2006 je Državni zbor Republike Slovenije sprejel Odlok o preoblikovanju Visoke zdravstvene šole v Fakulteto za zdravstvene vede Univerze v Mariboru, in sicer kot prvo tovrstno fakulteto v našem prostoru. 12. 3. 2007 je bila v skladu z objavljenimi spremembami in dopolnitvami Statuta UM v Uradnem listu RS št. 22/2007 VZŠ UM tudi uradno preoblikovana v Fakulteto za zdravstvene vede Univerze v Mariboru.

The Parliament of the Republic of Slovenia adopted the Decree on the conversion of College of Nursing Care into the Faculty of Health Sciences, University of Maribor on December 27th 2006, as the first nursing faculty in our area. On March 12th 2007, according to published amendments to the Statute of UM in the Official Gazette no. 22/2007. CNC UM was officially converted into the University of Maribor Faculty of Health Sciences.

Nova članica UM - Fakulteta za zdravstvene vede

12. MARCA 2007 SO BILE V URADNEM LISTU OBJAVLJENE SPREMEMBE IN DOPOLNITVE STATUTA UNIVERZE V MARIBORU, V KATEREM JE NAVEDENA NOVA ČLANICA UNIVERZE - FAKULTETA ZA ZDRAVSTVENE VEDE

Ob preoblikovanju Visoke zdravstvene šole v Fakulteto za zdravstvene vede Univerze v Mariboru je bila 31. maja letos v Kazinski dvorani Slovenskega narodnega gledališča Maribor svečana akademija, na kateri so v slavnostnih nagovorih orisali pomen nove članice Univerze v Mariboru: dekanica fakultete red. prof. dr. h.c. dr. Dušanka Micić Turk, rektor Univerze red. prof. dr. Ivan Rozman, župan Mestne občine Maribor Franc Kangler, v imenu ministra dr. Jureta Zapana državni sekretar Ministrstva RS za visoko šolstvo, znanost in tehnologijo prof. dr. Dušan Lesjak, v imenu ministra Andreja Brulčina pa vodja Sektorja za krepitev zdravja in zdrav življenjski slog na Ministrstvu RS za zdravje dr. Vesna Kerstin Perčič.

Svečane akademije so se udeležili člani akademskega zbora nove fakultete, nekateri poslanci državnega zbora, direktor Univerzitetnega kliničnega centra Maribor prim. Gregor Pivec, dr. med., in nadškof dr. Franc Kramberger.

Dekanka fakultete prof. dr. Dušanka Micić Turk se je ob tej priložnosti zahvalila sodelavcem, predkanoni, senatorjem, članom akademskega zbora, vsem visokošolskim učiteljem in mentorjem, študentom, predstavnikom učnih baz in vsem, ki so pomagali k rasti in razvoju te medicinske šole, predvsem pa rektorju in vodstvu Univerze v Mariboru.

Svečane listine v znak priznanja in zahvale je fakulteta podelila poslancu Radjuj Mogetu, zaslužni prof. dr. Zinki Zorko, izredni članici SAZU, red. prof. dr. Ludviku Toplakju in izred. prof. dr. Zmagu Turku.

V imenu prejemnikov priznanja se je zahvalil poslanec državnega zbora profesor Rudi Može, ki je dekanici nametil med drugim naslednji poklon in pohvalo: "Z neuklonljivo voljo in s svojim nasmehom dosegate več kot kdo, ki tole po mizi. Zelo Vas spoštujemo in Vas imamo radi."

Nekaj poudarkov iz slavnostnega govora prof. dr. Dušanke Micić Turk:

- V svoji 13-letni zgodovini je Visoka

Rektor Univerze v Mariboru red. prof. dr. Ivan Rozman in dekanica Fakultete za zdravstvene vede red. prof., dr. h.c., dr. Dušanka Micić Turk.

Mariboru in prav temu dogodku je posebej dana današnja svečana akademija.

- Fakulteta je predhodno delovala kot Višja zdravstvena šola, ki jo je ustanovil

Državni zbor Republike Slovenije z Zakonom o ustanovitvi Višje zdravstvene šole v

Mariboru leta 1993, nato pa od 1. 1. 1995 po Odloku o preoblikovanju Univerze v

2004

2007

Prva doktorica znanosti s področja zdravstvene nege v Sloveniji

The first Doctor of Nursing in Slovenia

Leta 2004 je bila prof. Dr (Združeno kraljestvo Velike Britanije in Severne Irske) Majda Pajnkihar na University of Manchester promovirana v znanstveni naziv doktorica znanosti in tako postala prva doktorica znanosti s področja zdravstvene nege v Sloveniji.

Prof Majda Pajnkihar, PhD was promoted at the University of Manchester in 2004 and became the first Doctor of Nursing in Slovenia.

Leta 2007 je bila ustanovljena mednarodna raziskovalna skupina UDINE-C. Ustanovni člani so Prof Sara Owen, prof. Dr (Združeno kraljestvo Velike Britanije in Severne Irske) Majda Pajnkihar, Emeritus Prof Tony Butterworth in doc. dr. Christine Jackson.

In 2007 UDINE-C Network was founded by Prof Sara Owen, Prof Majda Pajnkihar, PhD, Emeritus Prof Tony Butterworth and Assist Prof Christine Jackson, PhD.

Inavguracija dekana prof. dr. Petra Kokola

Inauguration of the Dean Prof Peter Kokol, PhD

Vodenje Univerze v Mariboru Fakultete za zdravstvene vede je od 21. 10. 2007 najprej kot v. d. dekana, od 21. 10. 2008 do 20. 10. 2012 pa kot dekan, prevzel prof. dr. Peter Kokol.

Prof Peter Kokol, PhD, first appeared in the Management of the Faculty of Health Sciences as Acting Dean on October 21st 2007, then as the Dean, from October 21st 2008 till October 20th 2012.

Podiplomski študijski programi 2. stopnje

Postgraduate 2nd degree study programmes

V letu 2007 smo razpisali prva podiplomska študijska programa s področja zdravstvenih ved, in sicer študijska programa 2. stopnje Zdravstvena nega in Bioinformatika, ki ga izvajamo v sodelovanju z Univerzo v Mariboru Fakulteto za elektrotehniko, računalništvo in informatiko. V letu 2009 smo v sodelovanju s Fakulteto za organizacijske vede UM razpisali še študijski program 2. stopnje Management v zdravstvu in socialnem varstvu.

In the year 2007 we implemented the first postgraduate study programme Nursing Care, the next year postgraduate study programme Bioinformatics in collaboration with The Faculty of Electrical Engineering and Computer Science and in 2009 postgraduate study programme Management in Health and Social Welfare in collaboration with Faculty of Organizational Sciences.

Inauguration of the Dean Prof Majda Pajnkihar, PhD

21. 10. 2012 je najprej kot v. d. dekanice, od 1. 3. 2013 pa kot dekanica vodenje Univerze v Mariboru Fakultete za zdravstvene vede prevzela prof. Dr (Združeno kraljestvo Velike Britanije in Severne Irske) Majda Pajnkihar.

On October 21st 2012, first as Acting Dean, later from March 1st 2013 as Dean, the management of University of Maribor Faculty of Health Sciences was assumed by Prof Majda Pajnkihar, PhD.

20 let delovanja 20th anniversary

Fakulteta je ob kakovostnem izvajanju izobraževalnega in znanstvenoraziskovalnega dela obeležila 20. obletnico delovanja z organizacijo mednarodne konference z naslovom „Z znanjem do razvoja in zdravja“.

Along with a quality educational and scientific research work, the faculty celebrated its 20th anniversary by organizing the International conference „Knowledge Brings Development and Health“.

Častna doktorica UM predav. Majda Šlajmer Japelj

Doctor Emeritus of UM Majda Šlajmer Japelj

19. 9. 2013 je Univerza v Mariboru na predlog Univerze v Mariboru Fakultete za zdravstvene vede podelila naziv častna doktorica Univerze v Mariboru predav. Majdi Šlajmer Japelj.

On September 19th 2013 University of Maribor, on the proposal from the University of Maribor Faculty of Health Sciences, awarded the title of Doctor Emeritus of the University of Maribor to Majda Šlajmer Japelj.

Sodelovanje z Dr. Jean Watson

Collaboration with Dr. Jean Watson

V letu 2014 je fakulteta ob 21. obletnici delovanja organizirala mednarodno konferenco z naslovom »Z znanjem do zdravja in razvoja v 21. stoletju«. Na konferenci je sodelovala svetovno priznana teoretičarka, raziskovalka in profesorica Dr. Jean Watson.

In 2014, the faculty celebrated the 21st anniversary of its existence and organized the international conference "Knowledge Brings Health and Development in the 21st century". The world-renowned theoretician, researcher and professor Dr. Jean Watson participated in the conference.

Nagrada Združenih narodov in National Energy Globe Award Slovenia United Nations Environment Programme Award and the National Energy Globe Award Slovenia

V letu 2014 je projekt FP7-SME-2007-2 Sustainable Measures for Industrial Laundry Expansion Strategies: Smart Laundry-2015 (SMILES), v katerem je Univerza v Mariboru Fakulteta za zdravstvene vede sodelovala kot partner, prejel nagrado Združenih narodov in programa za okolje National Energy Globe Award Slovenia. Slovenska projektna skupina je delovala pod vodstvom prof. dr. Sonje Šostar Turk, prodekanice za podiplomski študij.

In 2014, the project FP7-SME-2007-2 Sustainable Measures for Industrial Laundry Expansion Strategies: Smart Laundry-2015 (SMILES), in which the University of Maribor Faculty of Health Sciences participated as a partner, won the United Nations Environment Program and National Energy Globe Award Slovenia. Slovenian project team worked under the guidance of Prof Sonja Šostar Turk, PhD, Vice-Dean for postgraduate studies.

Nove študijske smeri na študijskem programu 2. stopnje Zdravstvena nega

New study fields on the 2nd degree study programme Nursing Care

Na študijskem programu 2. stopnje Zdravstvena nega je v letu 2014 prvič razpisana študijska smer Urgentna stanja v zdravstvu, v letu 2015 pa še študijski smeri Gerontološka zdravstvena nega in Preventivna prehrana in klinična dietetika.

In the year 2014 we introduced a new study field Emergency Situations in Health Care within the post-graduate study programme Nursing Care and in 2015 two new study fields: Gerontological Nursing Care and Preventive Nutrition and Clinical Dietetics.

Poletne šole na UM FZV

Summer Schools at UM FHS

Leta 2008 in 2009 smo v sklopu projekta Healthy living – HEALTH organizirali poletni šoli z intenzivnim 10-dnevnim programom za študente iz Slovenije, Velike Britanije in Irske.

Fakulteta je leta 2015 skupaj s tujima partnerjema Lovisenberg Diaconal University College (Norveška) in University of Pecs (Madžarska) organizirala zimsko šolo.

In 2008 and 2009, as part of the project Healthy living – HEALTH, we organized a Summer Schools with an intensive 10-day programme for students from Slovenia, Great Britain and Ireland.

The faculty organized a Winter School in 2015, together with foreign partners Lovisenberg Diaconal University College (Norway) and University of Pecs (Hungary).

Leta 2022 smo v sklopu programa Erasmus+, v sodelovanju z Zdravstvenim domom Ljubljana in SIM centrom, organizirali kombinirani intenzivni program - mednarodno poletno šolo z naslovom: »Simulacije v izobraževanju zdravstvene nege«. Sodelovalo je sedemnajst študentov iz sedmih držav.

In 2022, as part of the Erasmus+ programme, in cooperation with the Ljubljana Health Center and the SIM Center, the faculty has organised a Blended Intensive Programme - International Summer School entitled: "Simulations in Nursing Education". Seventeen students from seven countries participated.

**SUMMER
SCHOOL 2022**
Simulation in Nursing Education

Zaslužni profesor Univerze v Mariboru prim. prof. dr. Zmago Turk

Professor Emeritus of the University of Maribor Prof Zmago Turk, PhD

Univerza v Mariboru je na predlog Univerze v Mariboru Fakultete za zdravstvene vede 27. 1. 2016 podelila naziv zaslužni profesor Univerze v Mariboru prim. prof. dr. Zmagu Turku.

On January 27th 2016 University of Maribor, on the proposal from the University of Maribor Faculty of Health Sciences, awarded the title of Professor Emeritus of the University of Maribor to Prof Zmago Turk, PhD.

Sestanek raziskovalne skupine UDINE-C

UDINE-C Group Meeting

Univerza v Mariboru Fakulteta za zdravstvene vede je organizirala srečanje raziskovalne skupine UDINE-C in mednarodno znanstveno konferenco z naslovom „Raziskovanje in izobraževanje v zdravstveni negi“, na kateri so od 14. do 17. junija 2016 sodelovale mednarodne partnerske univerze in člani skupine UDINE-C.

University of Maribor Faculty of Health Sciences organized UDINE-C Group Meeting and International Scientific Conference of international partner universities and UDINE-C Group members entitled „Research and Education in Nursing“ from 14th to 17th June 2016.

Temeljni postopki oživljanja

Basic Life Support

Maja 2015, 2016, 2017, 2018, 2019 in 2023 je Univerza v Mariboru Fakulteta za zdravstvene vede s pomočjo svojih študentov in zaposlenih ter vabljenih strokovnjakov iz zdravstvenih institucij izvedla izobraževanje o temeljnih postopkih oživljanja. Odličen odziv je doživela predstavitev mobilnega zdravstva, izvedena v sodelovanju z Zdravstvenim domom dr. Adolfa Drolca Maribor, Slovensko vojsko, Gorsko reševalno službo Maribor in Prostovoljnimi gasilskimi društvi Rače.

In May 2015, 2016, 2017, 2018, 2019 and 2023 University of Maribor Faculty of Health Sciences conducted an educational training of Basic Life Support with the help of its students and staff and invited experts from health institutions. Presentation of Mobile Health Care in collaboration with Health Care Centre dr. Adolfa Drolca Maribor, Slovenian Army, Maribor Mountain Rescue Service and Voluntary Fire Fighting Department Rače received an excellent response.

Mednarodno sodelovanje in program ERASMUS+

International Cooperation and Programme ERASMUS+

Mednarodna dejavnost na fakulteti je jedro, ki povezuje razvoj izobraževalnega, raziskovalnega, strokovnega in razvojnega dela na fakulteti.

V zadnjih letih je fakulteta uspela vzpostaviti aktivno partnersko povezovanje in sodelovanje z uglednimi in prepoznavnimi izobraževalnimi, znanstvenoraziskovalnimi in kliničnimi institucijami na globalnem nivoju. Število mednarodnih mobilnosti za študente in zaposlene v programu Erasmus+ iz leta v leto narašča.

International activity at the faculty is the core that connects the development of educational, research, professional and development work at the faculty. In recent years, the faculty has managed to establish active partnerships and cooperation with reputable and recognizable educational, scientific-research and clinical institutions at the global level. The number of international mobility for students and staff in the Erasmus+ programme is growing yearly.

Založniška dejavnost v zadnjem desetletju

Publishing Over the Last Decade

Na fakulteti se v okviru Komisije za založniško dejavnost izdajajo učbeniki, zborniki, informativne brošure in druge publikacije v tiskani in elektronski obliki. Med leti 2012 in 2023 je bilo izdanih 45 publikacij v tiskani in elektronski obliki, od tega 13 zbornikov konferenc in 6 visokošolskih učbenikov.

The faculty's Commission for Publishing manages the publishing of textbooks, collections, informative brochures and other publications are published in printed and electronic form. Between 2012 and 2023, 45 publications were published, including 13 conference proceedings and 6 higher education textbooks.

Napredna praksa v zdravstveni negi

Advanced Nursing Practice

Številne raziskave so pokazale, da lahko medicinske sestre z naprednimi znanji z dopolnitvijo ali razširitvijo vlog nudijo strokovno in kakovostno zdravstveno obravnavo bolnikov, prispevajo k boljši učinkovitosti, zmanjšanju stroškov, zadovoljstvu pacientov, zmanjšanju (re)hospitalizacij ter zmanjšanju smrtnosti.

Na Univerzi v Mariboru Fakulteti za zdravstvene vede smo prvi v slovenskem prostoru po zgledu mednarodnih smernic s področja napredne zdravstvene nege v letu 2020/2021 razpisali študijsko smer Integrirana obravnava kroničnih bolnikov v napredni zdravstveni negi, v študijskem letu 2021/22 pa še Integrirano obravnavo starejših v napredni zdravstveni negi ter Mentalno zdravje v napredni praksi zdravstvene nege.

Numerous studies have shown that nurses with advanced skills can provide professional and high-quality medical treatment to patients by supplementing or expanding their roles, contribute to better efficiency, cost reduction, patient satisfaction, reduction of (re)hospitalizations and mortality.

At the University of Maribor Faculty of Health Sciences, we were the first in Slovenia to introduce the study course Integrated treatment of chronic patients in advanced nursing practice in 2020/2021, following the example of international guidelines in the field of advanced nursing, and Integrated care for older people in advanced nursing practice and Mental health in advanced nursing practice in the academic year 2021/22.

20. 1. 2022 je bila na Univerzi v Mariboru promovirana prva doktorica znanosti podiplomskega študijskega programa 3. stopnje Zdravstvena nega Univerze v Mariboru Fakultete za zdravstvene vede, doc. dr. Nataša Mlinar Reljić.

On January 20th, 2022 Assist Prof Nataša Mlinar Reljić, PhD was promoted as the first Doctor of Science of the 3rd degree postgraduate study programme Health Care of the University of Maribor Faculty of Health Sciences.

Otvoritev knjižnice

Opening of the Library

Uradna otvoritev novih prostorov knjižnice je na Univerzi v Mariboru Fakulteti za zdravstvene vede potekala 29. 9. 2022. Knjižnica z novimi prostori zagotavlja odlične delovne pogoje zaposlenim in odlično počutje študentom in drugim uporabnikom. Je prostor za študij, poučevanje in raziskovalno delo. Študentom omogoča individualni in skupinski študij, uporabo elektronskih storitev knjižnice, pisanje poročil in drugih del. Knjižnica ima bogato zbirko knjižnega gradiva, ki študentom omogoča pridobivanje znanj s področja izbranega študija. Je prostor navdiha in ustvarjalnosti v akademskem okolju.

Knjižnica s svojo knjižnično-informacijsko dejavnostjo nudi podporo pedagoškemu in znanstvenoraziskovalnemu delu fakultete. Odlično opravlja svoje poslanstvo pri informacijskem opismenjevanju uporabnikov knjižničnih storitev, z močno vpetostjo v študijske programe, z izdelavo bibliografij visokošolskih učiteljev - raziskovalcev in nenazadnje s podporo samostojnemu in vseživljenjskemu učenju.

On September 29th, 2022, the new library was officially opened at the University of Maribor Faculty of Health Sciences. With its new premises, the library provides excellent working conditions for employees and excellent well-being for students and other users. It is a place for study, teaching and research work. It enables students to study individually, in groups, the use the electronic services of the library, write reports, essays and other works. The library has a rich collection of book materials, which enable students to acquire knowledge in the chosen field of study. It is a place of inspiration and creativity in an academic environment. With its library and information activities, the library offers support to the teaching and scientific research work of the faculty. It perfectly fulfills its mission in the information literacy of users of library services, with a strong involvement in study programs, by creating bibliographies of higher education teachers - researchers and, last but not least, by supporting independent and lifelong learning.

Raziskovalna dejavnost

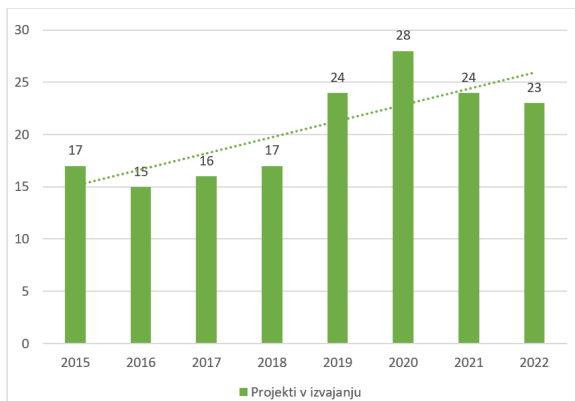

Research Activity

Univerza v Mariboru Fakulteta za zdravstvene vede je močno okrepila mednarodno povezanost, kar se odraža predvsem v številu prijavljenih in pridobljenih projektov. Fakulteta stremi k temu, da študente aktivno vključuje v raziskovalno delo in jim s tem omogoča pridobitev številnih praktičnih izkušenj in spretnosti, nova znanja ter kompetence za njihovo delo. Raziskovalna dejavnost na fakulteti predstavlja pomembno vez med prakso in izobraževanjem.

The University of Maribor Faculty of Health Sciences has strengthened its international cooperation, which is mainly reflected in the number of submitted and acquired projects. The faculty strives to actively engage students in research activities, allowing them to obtain various practical experiences, skills, knowledge, and competencies for their future careers. Research activity at the faculty represents an important link between practice and education.

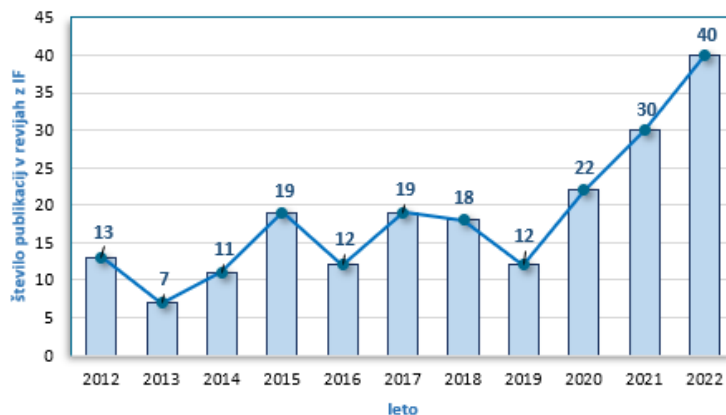

Objave v revijah s faktorjem vpliva

Publications in Journals with an Impact Factor

Raziskovalci na Univerzi v Mariboru Fakulteti za zdravstvene vede so bili v letu 2022 izjemno uspešni s 40 objavami v revijah s faktorjem vpliva. Te publikacije prikazujejo predanost in strokovnost naših raziskovalcev, ki pomembno prispevajo k nadaljnjemu razvoju discipline in profesije zdravstvene nege in zdravstvenih ved.

Researchers at the University of Maribor Faculty of Health Sciences were extremely successful in 2022 with 40 publications in scientific journals with an impact factor. These publications demonstrate the dedication and expertise of our researchers, who contribute significantly to the further development of the discipline and profession of nursing and health sciences.

Izjemni dosežek

An Outstanding Achievement

Univerza Stanford je objavila seznam 2 % najboljših znanstvenikov na svetu, pri čemer je v svoji študiji zajela 10.020.500 avtorjev del, objavljenih v mednarodni periodiki. Znanstveniki so razvrščeni v 22 znanstvenih področij in 176 podpodročij. Po lestvici Univerze v Stanfordu spada izr. prof. dr. Sabina Fijan v 2 % najbolj citiranih znanstvenikov na svojem področju.

Stanford University published a list of the top 2% of scientists in the world, which included in its study 10,020,500 authors' works published in international periodicals. Scientists are classified into 22 scientific fields and 176 subfields. Assoc Prof Sabina Fijan, PhD is in the top 2% of the most cited scientists in her field, according to the ranking of Stanford University.

Medgeneracijska srečanja

Intergenerational Meetings

V sklopu 30. obletnice Univerze v Mariboru Fakultete za zdravstvene vede izvajamo medgeneracijska srečanja na temo Skrb za zdravje. Prvo srečanje z naslovom Gibanje za boljše počutje je vodila izr. prof. dr. Jadranka Stričević. Drugo srečanje z naslovom Sodobna prehrana - izzivi in pasti je vodila predav. Ksenija Ekart.

As part of the 30th anniversary of University of Maribor Faculty of Health Sciences, we are holding intergenerational meetings on the topic of Health Care.
