2. APPLICATION and ENROLMENT DEADLINES

Under the Call for Enrolment in Postgraduate Study Programmes of the University of Maribor, candidates apply to the faculties of the University of Maribor. There is only one application period available to **citizens of the Republic of Slovenia and other EU Member States** for enrolment in the first year of study. If enrolment places remain after the first application period for citizens of the Republic of Slovenia and other EU Member States, faculties may decide to offer them in an additional application period for still-available enrolment places. Faculties may also decide and offer these places to Slovenians without Slovenian citizenship and citizens of non-EU Member States – foreigners, however, as per priority order, enrolment places are first filled by citizens of the Republic of Slovenia and other EU Member States, followed by Slovenians without Slovenian citizenship and lastly by citizens of non-EU Member States – foreigners.

There are separate enrolment places available to **Slovenians without Slovenian citizenship** for enrolment in the first year of **master's studies**. There is only one application period available and runs simultaneously with the application period for citizens of the Republic of Slovenia and other EU Member States. Places for enrolment in the first year of **doctoral studies** are common to Slovenians without Slovenian citizenship and citizens of non-EU Member States – foreigners. There are two application periods available (see next Paragraph).

At the first step of filling the application for enrolment ("Choice of the call for applications for enrolment and types of application"), a **candidate** who is a Slovenian without Slovenian citizenship **answers with "YES" to the statement "I am a Slovenian without Slovenian citizenship"**. At the next step, they must **indicate which of the following two categories they fall into**:

- **Slovenians in the neighbouring countries** (Slovenians who are members of the ethnic Slovenian community in all four neighbouring countries – Italy, Austria, Croatia and Hungary);
- **Slovenians around the world and descendants of persons of Slovenian ethnicity up to the third generation in a direct line** (expatriates and emigrants living in the neighbouring countries outside the area defined as the Slovenian cross-border area and in other European and non-European countries).

By signing the application form, the candidate guarantees the truthfulness of the information stated in the application for enrolment, thereby confirming that they are a Slovenian without Slovenian citizenship, which means that they fall into one of the two categories listed above.

There are two application periods available to **citizens of non-EU Member States – foreigners** for enrolment in the first year of study; however, in the second application period, candidates may apply only for those study programmes where enrolment places were not filled in the first application period. Irrespective of the aforementioned, faculties may decide against holding a second round of applications despite still having available enrolment places after the first application period.

For **enrolment in a higher year of study** (enrolment in accordance with transfer criteria or criteria for accelerated progression) and **parallel studies**, candidates shall apply within a separate application period. Enrolment places are available to citizens of the Republic of Slovenia and citizens of EU Member States, as well as to Slovenians without Slovenian citizenship and citizens of non-EU Member States – foreigners.

2.1 Application deadlines for citizens of the Republic of Slovenia and other EU Member States

FIRST APPLICATION PERIOD: from publication of the Call until 8 September 2022

Faculties shall enrol candidates admitted in the first application period by the internal deadline set by each relevant faculty, however, no later than **16 September 2022**.

If enrolment places remain after the first application period, faculties may decide to offer them in an additional application period for still-available enrolment places. Information on enrolment places offered in the additional application period and whether these places will also be available to Slovenians without Slovenian citizenship and citizens of non-EU Member States – foreigners will be posted on the website of the University of Maribor on **19 September 2022**.

If a candidate files a request for an extension of the enrolment deadline for legitimate reasons (to be decided on by competent faculty bodies), the enrolment deadline may be extended to **30 September 2022**. If a candidate submitted the application for recognition of foreign academic qualifications in due time, but it is nonetheless unreasonable to expect that the decision will be issued by 30 September 2022, the candidate is advised to file a written request for an extension of the deadline for enrolment for legitimate reasons with the relevant faculty.

If students who are enrolled in the first year of a postgraduate study programme for the first time withdraw from the programme by **15 October 2022** at the latest, it is considered they were never enrolled in the programme.

3. ENROLMENT PLACES

Candidates may apply for postgraduate study programmes that carry a fixed number of available places for enrolment in the first year of study, for enrolment in the higher year of study, and for parallel studies (the latter only for 2nd-cycle study programmes). Places are defined separately for full-time and part-time study modes and published in the two tables attached to and considered an integral part of the Call (separately for 2nd- and 3rd-cycle study programmes).

3.1 Places for enrolment in the first year of study

Places for enrolment in the first year of study are defined separately for:

- citizens of the Republic of Slovenia and other EU Member States;
- Slovenians without Slovenian citizenship (*enrolment places are defined separately only for master's studies, for doctoral studies, enrolment places are common with enrolment places for citizens of non-EU Member States – foreigners*);
- citizens of non-EU Member States – foreigners (see note to previous indent).

Slovenians without Slovenian citizenship and citizens of non-EU Member States – foreigners may enrol in postgraduate study programmes in accordance with the Rules on Tuition Fees and Accommodation in Student Dormitories for Slovenian Nationals without Slovenian Citizenship and Foreigners in the Republic of Slovenia (Official Gazette of the Republic of Slovenia, No. 77/16 and 25/19).

Enrolment places for citizens of the Republic of Slovenia and other EU Member States are available to:

- citizens of the Republic of Slovenia;
- citizens of other EU Member States;
- citizens of non-EU Member States with permanent residence in the Republic of Slovenia who, or whose parents or guardians (or at least one of them), are tax residents of the Republic of Slovenia at the time of the application;
- persons granted international protection and applicants for asylum under the International Protection Act (Official Gazette of the Republic of Slovenia, No. 16/17 – official consolidated text). When applying, foreign nationals invoking this status must answer “YES” to the third statement in the first chapter of the application: »I have a recognized international protection status or I am an international protection applicant.« Higher education institutions obtain proof ex officio from the competent authority (i.e. Ministry of Foreign Affairs of the Republic of Slovenia).

Citizens of Norway, Iceland, Liechtenstein, and Switzerland, though these are not EU Member States, are treated in the same way as citizens of the Republic of Slovenia and other EU Member States. As of the 2021/2022 academic year, citizens of the United Kingdom are enrolled as citizens of non-EU Member States and are charged a tuition fee.

Candidates who are already enrolled (in postgraduate study programmes of the University of Maribor or other higher education institutions) **and wish to change the study programme** apply for places for enrolment in the first year of study as all other candidates. This also applies to students who wish to change the study mode in the same study programme in the first year.

Candidates who have already repeated a year or changed their full-time study programme may apply for full-time studies, but they shall be charged a tuition fee in accordance with Article 77 of the Higher Education Act - ZViS.

3.2 Places for enrolment in the higher year of study

Candidates apply for places for enrolment in a higher year of study if they wish to change a postgraduate study programme of the University of Maribor or any other higher education institution in which they are enrolled, or they were enrolled, and to enrol in another **similar** study programme.

Competent bodies of higher education institutions take into account **applications for enrolment in a higher year of study** in accordance with:

- **transfer criteria**, as referred to under respective study programmes for students wishing to change study programmes accredited after 11 June 2004 (Bologna study programmes), or
- **criteria for accelerated progression** for candidates who did not complete their previous (pre-Bologna) study programme and wish to enrol in the year equal or junior to the previous study programme, but not in the first year of study.

Candidates applying for enrolment in a higher year of study must also meet criteria for admission to the first year of study of the study programme they are applying for. The year the candidate may enrol in is determined by the higher education institution under the application and admission procedure based on the recognition of previously acquired knowledge, regardless of the year of study selected by the candidate in the application.

Candidates applying for enrolment in a higher year of study are advised to inquire about meeting the transfer criteria or criteria for accelerated progression in a timely manner in the student affairs office of the relevant faculty, where they will receive information on which supplemental documents they must attach to the application for recognition of study obligations and about the recognition process itself.

Candidates who have already repeated a year or changed their full-time study programme may apply for full-time studies, but they shall be charged a tuition fee in accordance with Article 77 of the Higher Education Act - ZViS.

Places for enrolment in a higher year of study are available for enrolment to all candidates regardless of citizenship.

3.3 Places for enrolment in parallel studies

Academic affairs commissions of faculty senates may allow **successful students** who meet the requirements for advancement to the next year and have an average grade of at least 8 in the first year of studies to **take up parallel studies under two or more study programmes conducted by one or more faculties of the University of Maribor**. In exceptional cases, the commission may allow candidates with an outstanding academic record, which is one of the admission requirements, to simultaneously enrol in the first year of two study programmes. Candidates must apply for enrolment places available for parallel studies, which are published in a separate table.

For enrolment in the first year of a parallel degree study programme, Slovenian citizens and EU citizens are not charged a tuition fee for full-time studies if they have not yet obtained an education corresponding to at least the level of education obtained under the study programme in which they are enrolled (in accordance with Article 77 of the Higher Education Act - ZViS). When a student obtains a degree in his or her study programme at the parent higher education institution and obtains the same level of education in the study programme in which they are enrolled, the student is charged a tuition fee in the next year of his or her parallel degree study programme in accordance with Article 77 of the Higher Education Act - ZViS.

Places for enrolment in parallel studies are available for enrolment to all candidates regardless of citizenship.

4. ADMISSION REQUIREMENTS AND BRIDGING EXAMINATION

Candidates who meet the admission requirements laid down in accredited study programmes may apply for enrolment in postgraduate study programmes of the University of Maribor. Admission requirements for individual study programmes are laid down in detailed **call texts issued by faculties** and are part of this Call.

In order to be admitted to a postgraduate study programme in **a field different from the one in which they graduated**, candidates must fulfil additional study obligations (**bridging examination**). These obligations, corresponding to 10-60 ECTS credits, will be determined based on differences between the candidates' field of expertise and the selected study programme. Candidates must pass these exams prior to enrolment.

Candidates are advised to request information on bridging examination from student affairs offices at relevant faculties as soon as possible. Student affairs offices will provide detailed information on exams and examination methods. Fees for bridging exams must be paid in accordance with the tariff list of the University of Maribor.

In some study programmes, candidates are expected to possess **knowledge of the language in which the study programme is conducted** at the level specified for the study programme in the call for enrolment. Information about the study programmes for which language proficiency is verified upon the application for enrolment is provided in the call for each study programme.
